

7 Minute Briefing

Child Sexual Exploitation

1. Background

Child Sexual exploitation (CSE) is a form of abuse that can happen to any child irrespective of social background.

This is an issue of abuse not a lifestyle choice. Children who are sexually exploited are the victims

Male victims are very under-reported.

2. What is it?

CSE often involves a child receiving 'something' e.g. gifts, money, alcohol, drugs, cigarettes etc. for performing sexual activities. Many young people will not see themselves as victims as they are led to believe they are making their own choices, but they aren't.

3. Why it matters?

Children who become exploited in this type of abuse face huge risks to their physical, psychological and emotional health.

Victims require long term intensive support.

The perpetrators are criminals and must be pursued through the courts

4. Categories of CSE

CSE can take various forms including: Online grooming; Gang exploitation; Boyfriend/girlfriend model; Party model; Street model; Peer Model

CSE offences always include an element of grooming – manipulating a child in order to exploit them.

5. Vulnerability

Factors that will make a child more vulnerable include; Missing from home; disengaged from education; feeling alienated from family; lack of friends/peers; mental health issues; criminality.

Victims will often become secretive and estranged from family and friends.

6. Local issues

Cases referred locally go to the MASCE for review.

Most recent statistics show; 81% of referrals are for girls; the majority of cases include an aspect of internet use.

Children who go missing are particularly vulnerable.

7. Action

Recognise the warning signs of CSE. Use the screening tool and consult if you have concerns.

Make a referral to the MASH team on 0151 606 2008. Complete a CSE 1 form. Document all activity.
